

## Corporate Sessions

Do you have staff that work long-hours, or walk unaccompanied to their transport home in low-light conditions? Empower your staff and colleagues with the confidence and ability to protect themselves!

We have already catered for some of the country's top-tier corporations! Why not look in to a Krav Maga program for your workplace? We offer specialised intense, short-duration classes designed to suit the busy corporate life. Krav Maga also improves fitness, personal confidence and will provide a unique and practical team building experience. Minimum numbers apply.

**Time:** Any time suitable to your business. We provide sessions before and after normal business hours, or book us for a very unique business meeting or team building session. Before/after work, during lunch breaks, or whenever is best suited to you!

**Place:** You can train in our full time Brisbane City Venue, or can utilise space at your workplace.
