

## Compliments

Though we have experienced great success with sharing our passion of Krav Maga in Brisbane, Sydney, and other parts of Australia, we never want to lose sight of the most important part: You, our students. We strive to keep class and workshop numbers to a manageable size, and ensure you get the personal attention you deserve. We also need to thank those whose efforts continue to raise the awareness of Krav Maga in Australia and around the world:

- The International Krav Maga Federation (IKMF) - the true source of Krav Maga
- Eyal Yanilov - thank you for building and carrying on the dream of Imi. Your tireless efforts and dedication are greatly appreciated by all.
- the IKMF Global Instructors Team - you help share and build Krav Maga around the world, and help make sure the the quality and reputation of the IKMF is kept second to none
- the local IKMF branch - the guidance, support, backing, and local quality control of instructors
- all local IKMF instructors who continue to strive to build the good reputation and awareness of Krav Maga through continued application to their own training, recertification's, advanced training, and running of their schools (which comes sometimes at a great price)
- And of course, our students. Without all your dedication and commitment we, Krav Maga, the IKMF and the Krav Maga Training Academy would not be where we are today.
